WORK EXPERIENCE

AerialBorne | Front-End Developer (Freelance/Independent Projects)

JUL 2025 – PRESENT

- Managed end-to-end development for various React.js-based projects, emphasizing client requirements and rapid delivery.
- Integrated AI/ML APIs to implement automation workflows (e.g., content processing, data extraction) for enhanced application efficiency.
- Developed and integrated geo-spatial features and interactive mapping solutions using the Google Maps Platform for data visualization and location-based services.
- Collaborated with clients (including marketing teams) to achieve organic traffic and user acquisition goals.

Goignis Technologies LLP | Front-End Developer

OCT 2024 – JAN 2025

- Developed and maintained a scalable, responsive web application using React.js, JavaScript, HTML5, and CSS3
- Applied performance optimization techniques and implemented SEO best practices to enhance page speed and visibility
- Collaborated with marketing teams to boost organic traffic and user acquisition
- Improved UI/UX with mobile-first, cross-browser responsive design for better usability across all devices

ShunyaEka Technologies Pvt. Ltd | Front-End Developer

JUL 2022 – JUL 2024

- Developed dynamic, scalable web applications using React.js, JavaScript (ES6+), HTML5, and CSS3
- Built responsive, cross-browser, and mobile-friendly interfaces with a focus on user experience (UX)
- Improved site performance and SEO using lazy loading, code splitting, and component reusability
- Integrated RESTful APIs and managed code with Git in an Agile development environment
- Collaborated with UI/UX designers, QA testers, and project managers to deliver efficient front-end solutions

PROJECTS

ShunyaEkai Website

[Live Project Link](#)

- Handled front-end design and development using JavaScript, HTML5, CSS3, and modern frameworks.
- Built responsive layouts for cross-browser compatibility, ensuring seamless user experience across devices.
- Optimized website performance, resolved bugs, and wrote clean, efficient code for visual design.

Plusx Electric Website

[Live Project Link](#)

- Led UI/UX design and front-end development using HTML, CSS, React.js, Tailwind CSS, and React Bootstrap.
- Ensured mobile responsiveness, optimized for various screen sizes, and collaborated with back-end developers for seamless API integration.
- Improved website performance, reduced load times, and conducted cross-browser testing (Chrome, Firefox, Edge).

Riot Arena Website

[Live Project Link](#)

- Spearheaded front-end development and UI/UX design using HTML, CSS, React.js, Tailwind CSS, and React Bootstrap.
- Created responsive layouts for an intuitive user interface across all screen sizes.
- Collaborated with back-end developers to ensure smooth API integration and real-time data syncing.
- Optimized website performance by conducting cross-browser testing and enhancing load times.

EDUCATION

Mangalayatan University (Distance Learning)

Master of Computer Applications (MCA) | 2023 – 2025
CGPA: 6.08

PDM UNIVERSITY (Regular)

Bachelor of Computer Applications (BCA) | 2018 – 2021
CGPA: 7.07
